

Synthesis Q# 21-26 pg. 127

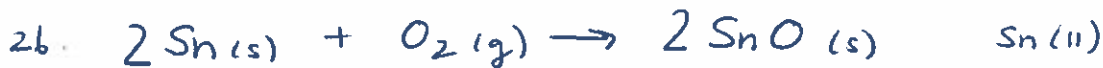

Q# 13, 16 pg. 132

*ionic

*ionic compounds
tend to be solids.

Q# 13, 16 pg. 132

13. metal oxide + water \rightarrow base

16. no because in a decomposition reaction something (one thing) breaks down into smaller compounds or elements \therefore you can't start with an element.
